INFILL OR IN-FAIL SURVEY RESULTS

Building IN

We asked urban planners and urban enthusiasts if the following infill designs make neighbourhood social dynamics "Better 🔅, Worse 🙁, or Stay the Same 😐

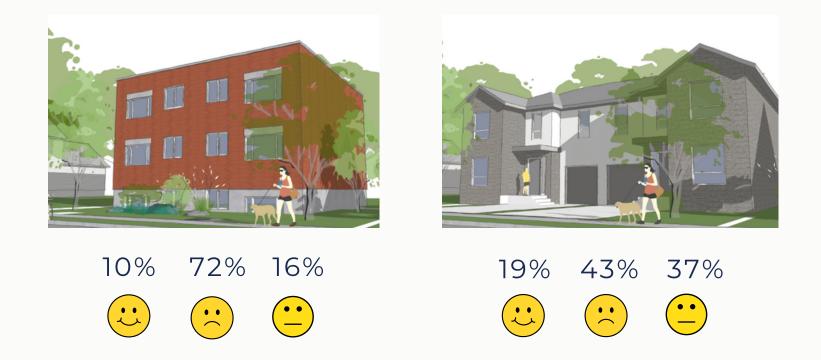

The following results are from 420 participants.

Designs voted to make neighbourhoods better.

Building

Designs voted to make neighbourhoods worse..

We asked participants to pick their top 3 choices of what they consider the best measures for assessing the liveliness and social dynamics of a neighbourhood. Here are the results.
